OFFERING #14

August 4, 1947

MATURE ENGLISH HYBRID CYMBIDIUM PLANTS AND DORMANT BACK BULBS

These plants were shipped to us from Armstrong and Brown in England. They are still in English pots of various sizes and we have priced them on the basis of quality and plant size rather than pot size. The back bulbs are potted, and many are already showing signs of growth.

Although these plants have been fumigated this year upon their entry to the United States, they may be again liable for fumigation in the state of California. This fumigation, if necessary, will be at the customer's expense. We do not accept responsibility for damage incurred by fumigation.

Unless otherwise advised, we will substitute smaller sizes both in plants and back bulbs in the event the size you order has been sold.

Shipments will be made in clay pots unless otherwise specified. Plants are shipped by Railway Express collect within the United States and by Air Mail or Air Express to foreign countries. If you prefer other means of shipment please state this in your order.

Please DO NOT include payment with your order. Payment should be made upon receipt of our invoice.

CROSS	SIZE	PLANTS	DORMANT BACK BULBS
Cym. Vangie (Castor, aureum x Erica Sander) Predominantly pleasing shades of green and yellow with occasional shades of pink in these good spikes of fine habit. February & March flowering.	Medium Small	40.00 30.00	12.50 8.00

Cym. Solent x Cym. Albanense Attractive shades of pink. Spring flowering.	Medium Small		10.00 6.00

DORMANT BACK BULBS OF EXHIBITION AND BREEDING VARIETIES OF CYMBIDIUMS

These back bulbs are potted in a peat-sphagnum mixture in clay pots. We guarantee these bulbs to be sound and many are already showing signs of growth.

We admit that these prices are high, but we feel that they are worth the money as breeders or as outstanding plants.
